To the Warner Zoning Board of Adjustment,

This letter is regarding ZBA Case #2025-5, also referred to as "CATCH Special Exception".

I have two comments:

1. I am in favor of the project. I realize this is not a popularity contest, but I'm hopeful that the ZBA will perform their due diligence and approve the project with any necessary conditions that would be appropriate.
2. There are other public comments that are anonymous. For the sake of the historical records, I think it would be in the interest of the Town that the authors of submitted comments be identified. During in-person public meetings, the Chair typically asks speakers to identify themselves. I think the same rules should apply to written comments.

Sincerely,

Daniel Watts
