Ben,

I have reviewed the June 10, 2020 site plan for the COMET, LLC development on Route 103 West. I note that two hydrants are proposed for the site and automatic sprinklers are proposed for the larger building.

My only request at this time is for the applicant to demonstrate fire department vehicular access on the site.

Please let me know if you have any questions or concerns.

Thank you,
Sean

Thanks, Sean. I don't know how to instruct them to demonstrate access, so unless there's something else you're looking for, we'll simply tell the applicant to communicate with the Fire Department.

Ben
