Other:

Housing survey questions: Mark Allen is on the Housing survey committee and has some questions on the survey for our committee to respond to. Please, look over and we can discuss it at our meeting.

From Mark:

Below are the two questions that the housing committee came up with to get some perspective from other town committees and boards. They are broad. We are just looking for any thoughts the Parks board has on housing in Warner and what ways housing has, or may have on the projects Parks a Rec chooses.

1. From the perspective of your committee, what are the important considerations for Warner's approach to housing?

2. Do you have any recommendations for how to engage the community around the topic of housing?
