1. Which board/committee/commission are you interested in?

housing committee

2. Please explain why you would like to serve on this Board

Living in Warner the past few years have been great, and I was lucky
enough to find housing through my volunteer efforts with Kearsarge based
Kawasiwajo Community Land Trust. I would like to engage with the
community more, and this committee seems like a logical step since I have
already been in touch with many community members about the
challenging issue of housing that faces Warner.
